FREEBOX

Built-in box reversible

Product informations

FREEBOX, the reversible built-in box, which allows the water to exit to the right or left; thanks to its small size it can also be installed in thin walls such as plasterboard.

Product features

- side outlet Ø 16-20 mm
- equipped with "Fix Dima" to be anchored to the bottom of the predisposition, and useful for fixing the air conditioner template
- complete with tilted reversible basin for condensate drain
- for the dimensions consult the technical drawing
