BALL VALVE

Model in AISI 316 Stainless Steel

Product informations

Ball valve in AISI 316 stainless steel with full bore, equipped with FF ISO 7-1 gas threaded connection and PTFE gasket with glass fiber reinforcement which increases its mechanical performance.

Product features

- rotation of the spherical shutter allows or prevents the flow
- small size
- guarantees very low load losses
- characterized by a fast activation and is suitable for high activation frequencies
- equipped with manual lever and complete with locking device

VALVE STRUCTURE		
1	***BODY***	AISI 316
2	***SLEEVE***	AISI 316
3	***BALL***	AISI 316
4	***SHAFT***	AISI 316
5	***SEAT***	PTFE + 15% GLASS
6	***BODY GASKET***	PTFE
