CENTRIFUGAL PUMP FOR CONDENSATE DRAIN

Tecnowater PC-125A model

Product informations

TECNOWATER PC-125A, the centrifugal pump designed for application in showcases, refrigerated counters, discharge of water loaded with impurities, derivations from condensates and air conditioners with or without collection tank; the *PC-125A* has a compact design that can be easily integrated both in domestic environments and in technical rooms. Its high performance makes this centrifugal pump indispensable in various dedicated applications.

Product features

- compact design
- high performance
- it can only be used indoors

The kit includes

- centrifugal pump *TECNOWATER PC-125A*
- filter
- flexible inlet adapter

Technical Features

POWER SUPPLY	230 V 50 HZ 180 W

TECNOGAS
