## CONDENSATION DISCHARGE PUMP FLOWATCH VISION

Model Flowatch Vision

### Product informations

**FLOWATCH VISION** is the monobloc pump for the condensate drain of air conditioners up to 10 kW, which can be installed both vertically and horizontally and, thanks to its small size, can be positioned in any type of environment. Its tank and integrated filter are easily accessible and removable for routine maintenance.

### The kit includes

- *FLOWATCH VISION* pump
- tank for vertical installation
- inlet pipe
- 1 tightening band
- screws and plugs
