CUBE VIBRATION DAMPERS

Model KUBLOCK

Product informations

KUBLOCK, cube vibration dampers with reinforced thermoplastic lower and upper support.

Product features

- equipped with deformable relief surfaces for correct positioning and vibration-damping central body made of volume-elastomer that totally reduces vibrations
- made with different spring sections, corresponding to different hardnesses (identifiable by colour) in order to cover the widest range of applications
- resistant to atmospheric ageing and UV rays
- supplied in sets of 4, complete with hardware for bracket or floor mounting
