SAFETY VALVE EXTRACTOR

EU model, for underground or above ground tank

Product informations

Extractor for safety valve ***EU model*** manufactured in yellow passivated galvanized steel, it allows to carry out the operations of replacement of the safety valve without being damaged; the hexagonal key allows to practice an equal force on all sides of the valve, avoiding flaring and ovalization. Its particular shape and its "anchoring" make it possible to replace the valves with maximum safety and minimum effort.

Technical Features

SKU	MODEL	PRICE
00000050050	EXTRACTOR FOR SAFETY VALVE EU 19-20 MODEL	€837.9 VAT EXCLUDED
00000050051	EXTRACTOR FOR SAFETY VALVE EU 24-25 MODEL	€1047.4 VAT EXCLUDED
00000050052	EXTRACTOR FOR SAFETY VALVE EU 29-30 MODEL	€1047.4 VAT EXCLUDED
00000050055	KEY FOR SAFETY VALVE EU 19-20 MODEL	€205.35 VAT EXCLUDED
00000050056	KEY FOR SAFETY VALVE EU 24-25 MODEL	€205.35 VAT EXCLUDED
00000050057	KEY FOR SAFETY VALVE EU 29-30 MODEL	€205.35 VAT EXCLUDED
