EXTREME ULTRA

Leak stop for air conditioning and refrigeration systems

Product informations

Extreme Ultra is the innovative refrigerant gas leak stop that solves all small leakage problems in AC/R systems.

The single pack contains a syringe with additive, 1 flexible adapter, 1 1/4 "SAE adapter and 1 5/16" SAE adapter.

Product features

- detects leaks and seals them permanently without reacting to moisture and oxygen
- the solution is not flammable or irritating and is safe for system components
- contains no polymers and is visible when exposed to UV light
- reduces compressor noise
- *compatible with all CFC, HFC and HCFC refrigerants and gases including R32*
- *it is the ideal solution for repairing refrigerant gas leaks even in hybrid and electric vehicle air conditioning systems*

Technical Features

- 6 ml dose is for AC/R systems up to 21 KW - 6 kg refrigerant gas
- provides repair of microleaks down to 0.3 mm
- compatible with all refrigerant gases including CO2 (*except R717*)
- maximum permitted dilution is 1:125 (1 part *EXTREME ULTRA* for every 125 parts Compressor Oil)
