## FISCAL TURBINE GAS METERS

Model TRZ2

### Product informations

**TRZ2**, fiscal turbine gas meters particularly suitable for their high measurement accuracy, stability over time and their compact design; designed for testing systems, given their high precision and reproducibility, their turbines are particularly suitable for use as sample counters.

### Materials

Depending on the pressure used, the case is constructed of ductile iron, steel, or welded steel; these meters meet stringent safety standards and are fireproof (HTB). For greater precision, the impeller is made of aluminum.

### Product features

- turbine gas meters with measuring cartridge
- standard flow rectifier
- thermowell on the gas meter case (*optional*)
- verified and certified by the national metric office
- PTB and European (CEE) and international approvals
- suitable for natural gas, refinery gas, town gas, butane, ethylene, air, nitrogen and other gases on request
- high frequency pulse generator (*optional*)
- absolute ENCODER S1 (*optional*)

## Technical Features

<b>SIZE</b>	G 65 - G 1000
<b>FLOW RATES</b>	5 - 1600 M <sup>3</sup> /H
<b>RATIO</b>	1:20
<b>NOMINAL DIAMETERS</b>	DN50 - DN150
<b>PRESSURE RANGE</b>	PN 10 - 16 AND ANSI 150 - 600
<b>LENGTH</b>	3 DN
<b>DEGREE OF PROTECTION</b>	IP67 (PROTECTED AGAINST SHORT IMMERSIONS, UP TO 1 M DEEP AND COMPLETELY HERMETIC AGAINST DUST AND FUMES)
<b>COMPLIANCE</b>	MANUFACTURED IN ACCORDANCE WITH DIN EN ISO 9001:2000 (DIN EN ISO 14001), AND MEET EUROPEAN REQUIREMENTS AND INTERNATIONAL RULE (EN 12261, OIML, ETC..)

SKU	MODEL	PRICE
