HYDRA COLD WATER FILTER

Self-cleaning filter with anti-wash

Product informations

Hydra self-cleaning filter, featuring a anti-wash system for effective sediment removal; the effectiveness of the process is guaranteed by the drainage system designed to prevent the flow of the expelled water.

Filter equipped with DISCHARGE FUNNEL, reflux pollution prevention device (UNI EN 1717-11/2002)

Product features

- simple filter cleaning, thanks to the drain valve located on the bottom
- equipped with an anti-pollution drain system, designed to block the backflow of expelled water
- built with non-toxic materials, usable in drinking water

Technical Features

Hydra Cold Water Filter

MATERIAL	• HEAD: REINFORCED PROPYLENE • CUP: PET • O-RING: EPDM • VENT VALVE: UNIT IN STAINLESS STEEL, O-RING IN EPDM • IN/OUT CONNECTIONS: BRASS • BALL VALVE: NICKEL PLATED BRASS • DISCHARGE FUNNEL: REINFORCED PROPYLENE
CONNECTIONS	• IN/OUT Ø 3/4" (SKU 70845) • IN/OUT Ø 1" (SKU 70846)
MAX PRESSURE	8 BAR
MAX TEMPERATURE	45°C
FLOW RATE	• 5000 L/H (SKU 70845) • 6000 L/H (SKU 70846)
DIMENSIONS	390 X 120 X 107 MM (AXBXC)
FILTRATION	90 MCR

SKU	MODEL	PRICE
00000070845	FILTER - 3/4" - 90 MICRONS	€140.6 VAT EXCLUDED
00000070846	FILTER - 1" - 90 MICRONS	€131.8 VAT EXCLUDED
