INDIRECTLY OPERATED WATER SOLENOID VALVE

Model 7322 Parker NA

Product informations

Indirectly operated normally open solenoid valve for applications in the industrial and process markets, to be installed when precise and reliable water control is required; consisting of a brass body and a stainless steel operator rated for millions of life cycles. This product can optimize the total ownership costs in a broad range of heavy duty and high demanding applications in safe or harsh environment including ATEX.

Supplied without coil.

Product features

- anti water hammer effect
- applications in firefighting, irrigation, water distribution, cooling and air conditioning
