

# LIQUIDBLUE 100

Corrosion inhibitor, antiscalant and biocide

## Product informations

Solution for the complete protection of corrosive phenomena and limescale in boilers and heating systems, including those equipped with aluminum components.

## Benefits

- prevents oxygen corrosion
- prevents oxide deposits
- specific for copper, steel and aluminum alloys
- inhibits the proliferation of bacteria and by-products
- easy to handle
- of simple analytical determination
- contains activity indicator
- contains no exhaust limiting substances

## Application and Dosage

**LiquidBlue 100** can be introduced into the system by the dosing pump, feed tank or other convenient point in the circuit. The optimal dosage for correct system protection is 1 liter for every 100 liters of water in the system.
