FASTPIPE® TWIN

Tube coil with UV-PRO coating

Product informations

It brings together all the advantages of the ***FastPipe®*** system with the added convenience of laying two pipes with different diameters at the same time. The pipes can be laid together and, before proceeding with the connection, separated close to the desired size and cut.

The coiled tube is available in different configurations

- without coating (50 m coils)
- with 6 mm white coating
- with 6 mm UV-Pro coating (grey)

The hose also complies with the following regulations

- Coating (thermal conductivity): **UNI 8457 - UNI 9174**
- Coating (fire resistance): **UNI EN 1382:2014 - UL 94:2001**
- Resistance to permeation: **EN 1736 Top Performer Classe 1**
