## MODULAR BASE

TECNO-BLOCK model

### Product informations

*Recycling of discarded tyres is very important for the environment, as up to 95% of the rubber they are made of can be recovered by processing them, allowing the material to be used again by giving it a new life!*

*The process of processing discarded tyres involves 3 steps*

1. *Metal removal*
2. *Tyre Destruction*
3. *Further grinding to rubber powder, the main ingredient in **TECNO-BLOCK***

The **TECNO-BLOCK** modular base is designed to provide a stable and secure base for air conditioners, heat pumps, dehumidifiers, etc...

### Product features

- predicts movement, vibration and noise during operation of the unit
- recycled rubber makes this product water and weather resistant, increasing its durability
- specific for VRV/VRF/AC systems, pipes in general and ducted ducts

### Technical Features

## Modular Base
