NEUTRAL ACID WATER 35K CARTRIDGE

Acid condensate neutralizer for condensing boilers

Product informations

Effective, economical and eco-sustainable product thanks to the biodegradable disposable cartridge and the container that never needs replacing.

Product features

- special internal formulation which always ensures a neutralized pH of the discharge condensate
- easy installation (*cartridge must be installed vertically*)
- it can be used with all types of condensate drain pipes
- EPDM hydraulic seals
- sold with 1 refill included

To ensure the performance of the *Neutral Acid Water* cartridge it is highly recommended:

- replace the cartridge every 6 months or when the internal material runs out
- if the cartridge is installed outdoors, it is essential to adopt antifreeze protection
- in situations where the external condensate drain pipe has a diameter of less than Ø 32 mm, it must be protected from frost and against possible water infiltrations
