PAIR OF BRACKETS IN POLYAMIDE

Version 2.0

Product informations

New ***Tecnogas branded Polyamide Brackets Version 2.0*** NOT pre-assembled, but equipped with quick-mounting technology!

Product features

- quick assembly by inserting the vertical arm onto the horizontal arm
- high mechanical performance, interlocking will be ensured by both a pivot pin and a Nylon safety pin
- made of a material that is very resistant to atmospheric agents, in particular salt sprays and UV rays, they do not rust and they are very stable over time
- to fix the brackets to the wall, use screws or plugs (*not included in the package*)

Anti-vibration sliders specifically for this type of bracket are also available:

- reduce installation time
- they fit directly on the top horizontal side, without the need to apply the fixing screw from the underside
- slide easily over the entire rail, providing greater freedom of positioning for securing the machine

INSTALLATION

1. Place the vertical arm on the horizontal arm
2. Fasten the bracket to the wall and close with the protective caps
3. The bracket is ready for the external unit installation!
