PORTABLE INFLATOR

Inflator for boiler expansion tank

Product informations

Portable inflator, the ideal solution to pressurize the expansion tank of a boiler; simple to use, light and portable product.

Product features

- equipped with a 110 bar nitrogen bottle
- thanks to its small size, it is the ideal tool for carrying out quick interventions, directly on site, without the need for an air compressor
- equipped with high definition pressure gauge and flexible pipe with quick connection for expansion vessels

1 L nitrogen cylinder - 110 BAR (SKU 11224) with ¼" SAE male thread connection (specific for inflator SKU 70981)

Technical Features

- Max pressure 10 bar
