Portable Manual Welding

PORTABLE MANUAL WELDING

Model EURO 160

Product informations

Welding machine suitable for butt welding of pipes and fittings in PE and PP for discharge; made up of two light alloy trolleys, one of which mounted on axial bearings that runs on chromed and ground rods of Ø 20 mm. Equipped with a translation lever which, in addition to carrying out the movement, acts on an index which shows the values of the pipe to be welded on a graduated scale.

Supplied

- electric cutter operated by a microswitch command placed on the handle
- heating plate that slides on rod Ø 20 mm, PTFE coated and with temperature regulation; moreover it is easily removable to be used manually
- right and left vices Ø 160 mm equipped with an innovative locking system that makes them suitable to weld bends and shorts pigot fittings
- complete with reductions for clamp and supports of Ø 40 - Ø 50 - Ø 63 - Ø 75 - Ø 90 - Ø 110 - Ø 125 - Ø 140 mm
- supplied with a practical drawer that contains all the reductions and accessories

Technical Features

WELDING RANGE	40 ÷ 160 MM
MAXIMUM WORKING FORCE	70 KG
SUPPLY VOLTAGE	230 V 50 HZ

Portable Manual Welding

ABSORPTION	1.6 KW
DIMENSIONS	80 X 51 X 85 CM
WEIGHT	51 KG
