PROCLEAN OZZY

High power ozone generator for air and water treatment

Product informations

OZZY is the high power Ozone generator for air and water treatment. *Ozone, recognized by the Ministry of Health as a "natural aid for the sterilization of environments contaminated by bacteria, viruses, spores, etc." (Prot. n. 24482 del 31/07/1996)*, it is a powerful ally for the sanitation and sanitation of environments, because it is able to ensure a deep level of disinfection. The oxidizing power of ozone is up to 3000 times higher than that of chlorine-based disinfectants. In addition to killing bacteria, mushrooms and molds and innativating viruses in a few seconds, the oxidizing power of ozone also allows the effective elimination of toxic substances and unwanted odors.

OZZY can be used for the treatment of liquids (accessories are included), simply connect the tube and insert the diffuser inside the liquid, sanitizing it thus obtaining a bactericidal effect even on food, clothes and any object immersed in it. Another great advantage of ozone is that in the environments or in the treated liquids there are no residues, in fact, being an unstable gas, the ozone transforms back into diatomic oxygen in a variable time, which depends on the degree of contamination of the treated environment. the ambient temperature and humidity.

For professional use only.

The kit includes

- ozone generator
- power cable
- liquid pipe (2 m)
- liquid diffuser

Via Marco Polo 33
35020 Albignasego
Padova – Italy

P.IVA: 03859580288
Tel: +39 049 8625910
Mail: info@tecnogas.net

- adjustment potentiometer
- ozone exit

Product features

- power supply 230 VAC - 50 Hz
- operation timer, settable for hours, minutes or seconds
- amperometer (allows you to check the correct operation of the machine and the actual adjustment of the output)
- air cooling
- carrying handle
- power cord with Italian plug 10A
- liquid treatment tube and heat sink

Technical Features

SKU	*MODEL*	*OZONE EMISSION*	*ADJUSTABLE*	*POWER*	*AIR FLOW*	*WEIGHT*	*GENERATOR*
12031	*OZZY 3*	3 G/H	NOT ADJUSTABLE	80 W	15 l/MIN	5,7 KG	CERAMIC OZONE GENERATOR
12032	*OZZY 6*	6 G/H	ADJUSTABLE (0 - 100%)	130 W	15 l/MIN	6,5 KG	CERAMIC OZONE GENERATOR
12033	*OZZY 10*	10 G/H	ADJUSTABLE (0 - 100%)	200 W	45 l/MIN	8,0 KG	QUARTZ OZONE GENERATOR
