DUAL STAGE METHANE GAS REGULATOR

FE model

Product informations

Dual stage regulator for methane FE model, complete with minimum and maximum shut-off device and flow rate limiter; complete with inlet filter.

Also available the kit of change springs (*sku 40104*) and the conical or cylindrical fittings for installing the regulator (*sku 40100 / 40102 / 40103*).

Technical Features

Via Marco Polo 33
