REMOTE GAS LEAK DETECTOR

Model RMP S

Product informations

RMP, the remote detector that can be used in both civil and industrial environments, powered directly by the CRD control unit with the catalytic EMS sensor module inside.

Product features

- used for the detection of explosive gases
- can be connected to any 4-20mA control panel
- its installation position depends on the type of gas to be detected (methane 30 cm from the ceiling, LPG 30 cm from the ground)

Technical Features

GAS DETECTED	• CH_4 - *SKU 504140* • LPG - *SKU 504150*
POWER SUPPLY	12 - 24 VDC
ALARM LEVELS	6% LIE / 10% LIE
OUTPUT SIGNAL	12 MA / 20MA
VISUAL INDICATION	LED
OPERATING TEMPERATURE	- 20°C ÷ + 50°C
SENSOR LIFE	5 YEARS
