SILICON SEALING BAND

Sealing band for hydraulic connections

Product informations

Thermally stabilized synthetic fiber band, impregnated with a special non-hardening mastic to seal the threaded hydraulic connections or of any material.

Product features

- it does not alter the smell, taste and purity of the water
- it adapts to all threads and all materials
- it leaves no trace on the hands
- easy to apply and economical
- allows the repositioning of the connections and disassembly, even after years
- tolerate vibrations
- suitable for conical and parallel threads
- **not suitable in case of contact with strongly oxidizing substances**

Technical Features

APPLICATION WITH GAS	UP TO PRESSURES OF 5 BAR FROM - 20°C TO + 70°C
APPLICATION WITH WATER	• UP TO PRESSURES OF 16 BAR AT 95°C • UP TO PRESSURES OF 7 BAR AT 130°C
DIMENSIONAL STABILITY	170°C
