SPECIFIC LIQUID FOR UNIT WASHING

For external and internal units

Product informations

CLEAN-L, descaling liquid with detergent action, specific for the radiant masses of evaporators and condensers in air conditioning and refrigeration systems; this preparation does not damage aluminum and its alloys and restores its original brilliance by destroying the calcareous encrustations and bacteria that develop in these sections.

Product features

- contains no fuming acids, so its use is safe for maintenance workers
- quick, practical and effective
- ready to use
- for professional use
