STORMY WATER JET

Stormy Model

Product informations

STORMY is the compact water jet designed for A/C climate systems maintenance. It is useful for residential and commercial AC units.The permanent magnet DC motor is designed to guarantee good performances in compact size and low weight. The maximum pressure of 10 bars guarantees a powerful jet to remove any kind of dirt. The water jet is self-priming and has automatic control of both the maximum pressure and the engine load.

The kit consists of

- electric water jet
- manual handle
- inlet pipe (1.5 m)
- detechable filter
- outlet pipe (5 m)
- gun extension
