TECNOBREEZE STEALTH WIND

Air curtain

Product informations

TECNOBREEZE STEALTH WIND, the air curtain suitable for applications above glass doors, with recessed installation in the ceiling; air speed supported by a silent and high efficiency motor. The air barrier allows to maintain a constant temperature inside the environment, also avoiding the entry of cold or contaminated air flows from the outside.

Product features

- cover design, designed for recessed installation inside the false ceiling
- complete with 2 speed remote control
- made of stainless steel
- quiet, high-efficiency motor for sustained air speed
- maximum height above ground: 3 m
