## TECNOGAS SHRINK-WRAPPED SLEEVES

For water and gas pipes

### Product informations

Shrink-wrapped sleeves made with a very fine irradiated polyolefin compound and a butyl composite mastic with very high adhesiveness and dielectric strength. The excellent resistance to UV rays, salts, acids, alkalis, various oils, greases and solvents makes these products among the best in the field of passive protection of any metal material to be bury.

### Product features

- corrosion protection
- high insulation and sealing properties
- MB type self-marginal
- UV resistance
- high shrink ratio
- excellent chemical resistance and unlimited durability

### Applications

- corrosion protection of water and gas pipes
- anchoring systems protection
- general corrosion protection
