TRACCIANTE BRILLIANT HVAC&R

UV fluorescent tracer for refrigeration circuits and A/C systems

Product informations

The *HVAC&R* tracer allows you to quickly and accurately locate refrigerant gas leaks; inserted in the refrigeration circuit near the leak, the outgoing product will stand out through the use of a UV lamp. It is compatible with all CFC, HFC, HCFC, HFO, CO₂ and Hydrocarbon refrigerant gases (including R12, R134a, R1234yf, R407c, R22).

Product features

- contains no solvents
- it is not toxic
- it does not damage the implants

Technical Features

| <i>DOSA OF THE PRODUCT</i> | |
|----------------------------|-----------------|
| HVAC&R BRILLIANT 7,5 ML | LUBRICANT 0,5 L |
| HVAC&R BRILLIANT 15 ML | LUBRICANT 1 L |
| HVAC&R BRILLIANT 30 ML | LUBRICANT 2 L |
| HVAC&R BRILLIANT 60 ML | LUBRICANT 4 L |

For larger quantities of lubricant, use a dilution of the product 1:60

Tracciante Brilliant HVAC&R
