

## ELECTRIC LPG VAPORIZER

Fee-Out type without control panel, equipped with EExd box with on board thermostats

### Product informations

Electric LPG Vaporizer *mod. Feed-Out* without control panel, equipped with EExd box with on board thermostats, designed to transform liquefied gas at inlet, to gaseous state at outlet in maximum safety, ready to be used in civil, industrial and commercial systems; this vaporizer works in open cycle with the powered system, equipped with mechanical control of the liquid level inside and with the possibility of liquid return to the tank in case of overpressure.

### ***Vaporizer equipped with***

- pressure gauge
- safety valve
- thermometer
- filter
- ball valve
- water expansion tank
- electrical resistance EExd
- EExd connections
- water + glycol content

### Technical Features
