

VENT-PIPE

Vent in white pre-painted sheet metal

Product informations

Sheet metal vent designed to guarantee the evacuation of the fumes, avoiding blockage of the boiler; its shape makes it perfect as windproof and rainproof.

Product features

- formed by flanges produced in nylon with glass, which guarantee the thermal seal
- adequately sized for the passage of fumes without narrowing, avoiding unnecessary load losses
- applicable only on wall mounted boilers max 31 kW (27.000 kcal)
- manufactured in white pre-painted sheet metal

Technical Features

- Available in diameters: Ø 80 mm - Ø 100 mm - Ø 110 mm - Ø 120 mm - Ø 130 mm - Ø 140 mm - Ø 150 mm
- Available in length: 450 mm
